I understand that Reiki is a simple, gentle, hands-on energy technique that is used for stress reduction and relaxation. I understand that Reiki practitioners do not diagnose conditions nor do they prescribe or perform medical treatment, prescribe substances, nor interfere with the treatment of a licensed medical professional. I understand that Reiki does not take the place of veterinary care. It is recommended that the animal see a licensed veterinarian for any physical ailment they may have. I understand that Reiki can complement any veterinarian care that the pet may be receiving. I agree that I will inform my practitioner of any significant health changes prior to future appointments. I also understand that the body has the ability to heal itself and to do so, complete relaxation is often beneficial. I acknowledge that long- term imbalances may sometimes require multiple sessions in order to facilitate the level of relaxation needed by the body to heal itself. I understand that Reiki practitioners are providing Reiki at my request and are not responsible for the outcome of the session. The animal directs the treatment therefore session length and results vary per each session.
